

Important Notice:

Student Medical and Family Information for Enrolment

To comply with government regulations and to ensure that we have all the necessary information before students commence at Carey, we ask families to provide detailed and accurate information at the time of enrolment. This includes emergency contact information, family background information and student medical details.

As part of our commitment to the safety and wellbeing of our students, we ask you to provide current information about any ongoing conditions and allergies that will assist staff to support your daughter/son to participate in all activities. In particular it is essential that we have the student's current medical information in preparation for their participation in Orientation activities prior to commencement of the school year.

If there are any changes to your daughter/son's medical information between the time of enrolment and his/her participation in Orientation and/or commencement at Carey, you must advise the School as soon as possible so that we can ensure our records are up-to-date.
